INNOVATION STORY.

HOW IT WORKS!

Automower® keeps your garden in perfect shape, running effortlessly by itself, day or

night, rain or shine, or be in full control via the Automower® connect app.

MOWING CYCLE

- The concept is to keep short grass short.
- Husqvarna Automower® finds the charging station automatically.
- Charges for approximately 60 minutes.
- Resumes mowing, day in and day out, rain or shine.

RECHARGING

When it's time to recharge, the mower finds the charger by using one of three methods:

- Picking up a signal from the charging station antenna.
- Following the guide wire back to the charging station.
- Following the boundary wire until its within reach of the home signal.

BOUNDARY WIRE

RANDOM MOVEMENT PATTERN

- No need for specific programming.
- Covers all parts even if lawn is complex and/or contains trees, flowerbeds, passages etc.
- Allows the grass to be cut from different directions creating a smooth carpet like surface.

GUIDE WIRE

*Prices refer to units only. Installation kits sold separately. Installation costs apply.

18 MONTHS INTEREST FREE*

*Approved applicants only. Fees and T&CS apply - see page 20.
