# LOVE YOUR NEW AUTOMOWER® OR GET YOUR MONEY BACK!

Terms and Conditions apply. See [husqvarna.co.nz](http://husqvarna.co.nz) for full details. (no refund on installation costs).

# HOW IT WORKS!

When it's time to take your garden to the next level, visit [husqvarna.co.nz](https://husqvarna.co.nz) and take a look at the Husqvarna Automower® concept film.

## BOUNDARY WIRE

## GUIDE WIRE

## RECHARGING

Husqvarna Automower®

- + Finds the charging station automatically.
- + Charges for approximately 60 minutes.
- + Resumes mowing, day in and day out regardless of the weather.

## IT'S EASY TO SET UP

The working area and areas you want your Husqvarna Automower® to avoid are defined by a boundary wire, which is easily laid out around the desired cutting area.

## COLLISION AND LIFT SENSORS

Collision and lift sensors increase safety. When the mower runs into an object, it will reverse, turn and choose another direction. If it is lifted, the blade and mower will stop immediately, and an alarm will sound.

## NAVIGATION

- + The boundary and guide wires are pegged to the lawn or buried just below the surface. A pegged wire disappears into the lawn in just a few weeks.
- + The mower stays inside the boundary wire laid around the perimeter of the working area.
- + The charging station transmits a signal to the wire that guides the mower where to cut and also guides it to the charging station.

## UNSURPASSED CUTTING RESULT

Husqvarna Automower® uses razor-sharp blades to cut every blade of grass, resulting in a lush, green lawn that conventional blades cannot achieve. The grass clippings are mulched into the lawn and act as a natural fertiliser, helping keep lawns lush, green and moss free.

## IRREGULAR MOVEMENT PATTERN

- + No need for specific programming.
- + Covers all parts, even if the lawn is complex and/or contains trees, flowerbeds, passages, etc.
- + Allows the grass to be cut from different directions. Creates a smooth carpet-like surface.

**ADVANCED NAVIGATION**

**RECHARGES ITSELF**

**CUTS UNEVEN LAWN**

**NO TRACK MARKS**

**LESS NOISE**

**MANAGES PASSAGES**

**WORKS IN THE RAIN**

**MANAGES SLOPES**

## TOUCH SCREEN CONTROL FULL CONTROL AT YOUR FINGERTIPS

With GPS and cellular connectivity, you can control the mower from anywhere in the world. Start, stop and schedule your Husqvarna Automower® from your smartphone via the Automower® Connect app. You can also receive status updates straight to your screen and track your robotic mower if it's moved or stolen.

## H TS138 LAWN TRACTOR

User-friendly lawn tractor with foot-pedal operation, side ejection cutting deck and powerful engine to tackle smaller blocks.

**LAWN TRACTORS FROM \$4,299\***

# \$14,698

incl. 112cm cutting deck

## THE RIDER DIFFERENCE

### SUPERIOR MANOEUVRABILITY

Husqvarna's patented articulated steering system allows the rear wheels to swing underneath the machine resulting in superior manoeuvrability with a minimum turning radius at full lock.

### MOWING ACCESSIBILITY

The front-mounted cutting deck has a low profile that allows you to cut close to edges, reach into corners and mow under bushes with ease.

### COMFORTABLE DRIVE

With a Rider you get safety, stability and traction. The Rider's low centre of gravity contributes to the exceptional traction as well as a comfortable 'sit-in' feeling for the operator.

### ALL WHEEL DRIVE

Automatically adjust the traction on all wheels depending on the situation and the ground condition. Available on selected models only.

# HUSQVARNA RIDER COLLECT SERIES

Now you can achieve a tidy lawn without the clippings! The Rider Collect Series offers great performance, excellent manoeuvrability and problem-free collection with superior capacity.

The powerful ACTech™ auger transports the clippings without clogging and compacts it to fill the collector optimally.

With the push of a button you can switch from collection to mulching on the go.

The large collector is conveniently emptied with a push of a button.

Cutting deck servicing and cleaning is tool-free, thanks to the unique 90° service position.

The combination of a powerful auger compressing the grass, and a large-volume collector, is the secret behind the superior collection capacity. The Rider Collect can hold twice the grass volume of a conventional collection machine, allowing you to mow a larger area before it's time to empty the collector.

The cutting deck on the Rider Collect features counter-rotating blades that efficiently cut the grass and throw the clippings backwards to the auger.

Available with 103cm or 112cm cutting deck.

## L RC318T
